Newport Beach, CA 92660

VERSION WITH MARKINGS TO SHOW CHANGES MADE

36. (Twice amended) A computer-implemented method for facilitating the analysis of a web site, comprising:

comparing the web site at a first point in time to the web site at a second point in time to identify modifications made to the web site between the first and second points in time, wherein the web site comprises a collection of hypertextual documents interconnected by one or more links; and

generating a graphical map in which at least some of the modifications to the web site are highlighted;

wherein comparing the web site comprises scanning the web site to generate a current representation of the web site, and comparing the current representation to a prior representation on a node-by-node and link-by-link basis to identify the modifications.

63. (Amended) A computer-implemented method for facilitating the management of a web site, comprising:

scanning the web site to generate a first data structure that includes representations of a plurality of nodes and links of the web site at a first point in time;

subsequently, after changes have been made to the web site, scanning the web site to generate a second data structure that includes representations of a plurality of nodes and links of the web site at a second point in time;

comparing the first data structure to the second data structure to identify changes made to the web site between the first and the second points in time; and

generating a graphical map that depicts at least some of the changes, the graphical map including graphical representations of at least one of the following: (a) nodes that were added to the web site between the first and second points in time; (b) links that were added to the web site between the first and second points in time; (c) nodes that were deleted from the web site between the first and second points in time; (d) links that were deleted from the web site between the first and second points in time; and (e) nodes of the web site that were modified between the first and second points in time[;].
